U.S. Government and Politics

Whether your goal is to increase Advanced Placement® (AP®) course offerings, provide an authorized AP curriculum to classroom teachers, or ensure that students are well prepared for critical AP exams, Apex Learning® offers options for both virtual and blended learning programs with online courses authorized by the College Board AP Course Audit.

Create and Expand Access with Virtual Learning

Apex Learning is helping high schools across the country implement virtual AP programs. The flexibility of Apex Learning digital curriculum allows schools to address a range of needs that include:

- Offering an AP program with instruction provided by certified Apex Learning Virtual School teachers
- Filling gaps in an existing AP program by enrolling students in AP courses with instruction provided by certified Apex Learning Virtual School teachers
- Creating a virtual program using local teachers and Apex Learning digital curriculum

Increase Outcomes on AP Exams

Students enrolled in Apex Learning AP courses outpace their peers nationwide. During the 2013–2014 school year, 61 percent of Apex Learning Virtual School AP students scored a 3 or better on the AP exams across courses, outpacing the national average of 60 percent.

AP Exam Review Prepares Students for Success on the AP Exams

- Diagnostic assessments identify each student's strengths and weaknesses.
- Personalized study plans direct students to the most relevant instructional material.
- Students receive opportunities for practice and tips on taking the exam.
