Adaptive Tutorials

Personalized Instruction for ALL Students

Apex Learning Adaptive Tutorials

Adaptive Tutorials empower teachers to personalize learning to ensure every student:

- Passes their class the first time
- Achieves at high levels on high-stakes exams
- Is prepared for postsecondary success

Focused, Standards-Based Instruction

Within each Tutorial, every module targets specific, standards-based learning objectives.

The innovative, four-part design of Tutorials provides an instructional approach that builds knowledge and develops critical thinking skills while letting students and teachers take the approach to learning that works best for them.

The Apex Advantage

The measure of an effective curriculum is student achievement. Our digital curriculum is designed to support all students in achieving their potential, from those struggling with grade-level content to those capable of accelerating their learning.

The Apex blend of effective curriculum, actionable data, and success management ensures you get the outcomes you're expecting, and that your students deserve.

 Learn It Direct instruction engages students in active learning.	 Try It Practice and application develops skills and knowledge.
 Review It High-impact videos summarize and reinforce concepts.	 Test It Randomized assessments measure student learning.

The interactive, app-like design of Tutorials engages today's tech-savvy students.

 **Effective Curriculum**

 **Actionable Data**

 **Success Management**

Developed for use on tablet devices as well as laptops, desktops, netbooks, and Chromebooks

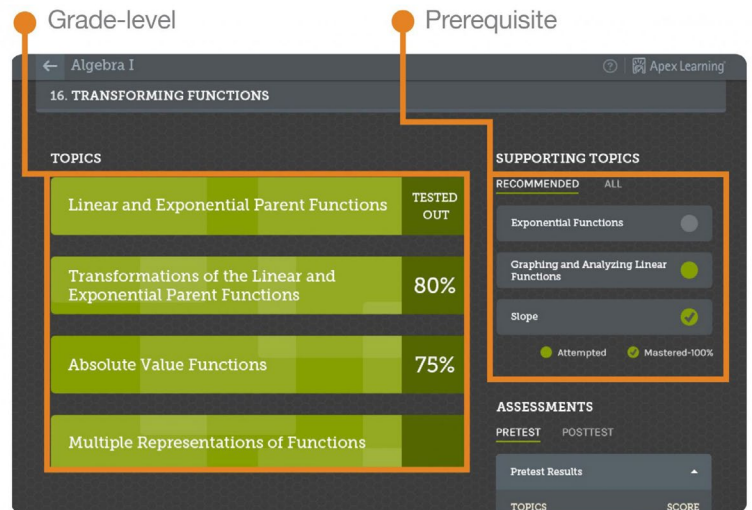

Adaptive Remediation

Provide seamless support for your students who struggle with grade-level content due to learning gaps.

Focus instruction: Tutorials identify and remediate gaps in prerequisite skills.

Own the experience: Students choose their path to mastery.

Get results: When more learning happens, achievement goes up.

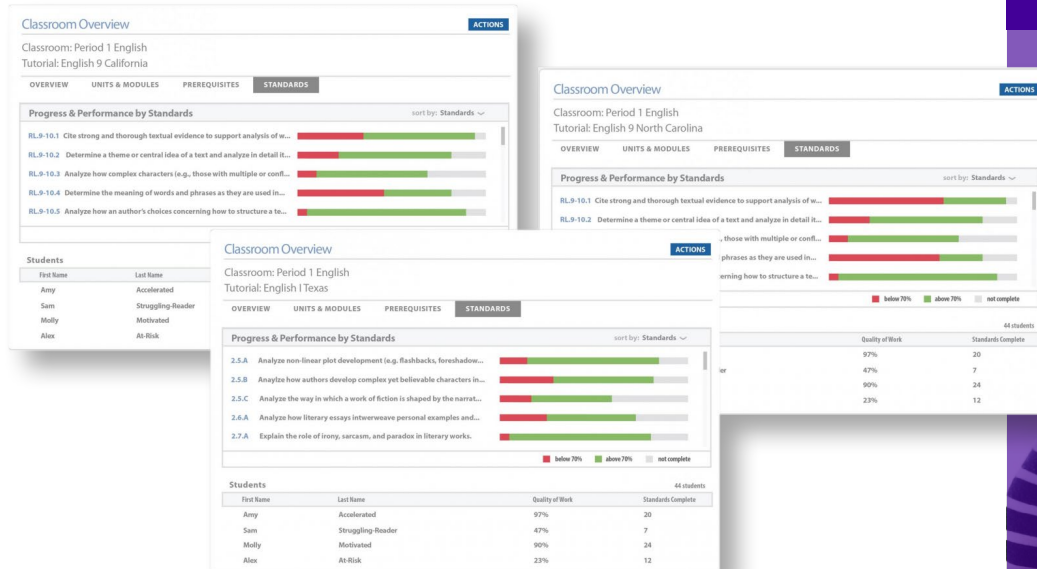

State Specific

Tutorials built specifically for your state give teachers and administrators exactly what they need to continuously track and improve student performance against your state standards.

With a simple click:

- Measure student progress and performance
- Gain insight into student usage and progress
- Determine program effectiveness

Examples of state-specific reporting:

“In the past, teachers struggled with offering differentiated remediation. With Tutorials our teachers can offer targeted remediation personalized for each student. Students work on their lessons at their own pace, focusing on the concepts they need additional support with.”

Keshia Setiz
Technology Integration Specialist
Mt. Vernon Community School

Powerful Implementation Models

Improve Course Pass Rates: Personalized learning paths, just-in-time remediation, and actionable data ensure all students are successful the first time.

Raise Exam Scores: Focus student learning on each student's areas of deficiency for success on high-stakes exams.

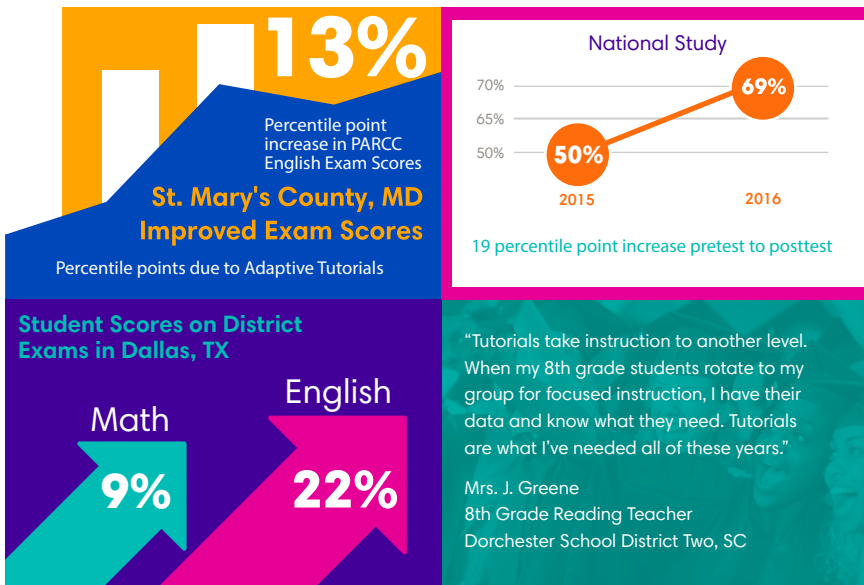

Demonstrate College and Work Readiness: Empower students to achieve their personal best on critical ACT®, SAT®, GED®, ACCUPLACER®, TASC, HiSET®, and TSI assessments.

Catalog

Middle School		High School		College Readiness
