

Math Foundations I offers a structured remediation solution based on the NCTM Curricular Focal Points and is designed to expedite student progress in acquiring 3rd- to 5th-grade skills. The course is appropriate for use as remediation for students in grades 6 to 12. When used in combination, Math Foundations I and Math Foundations II (covering grades 6 to 8) effectively remediate computational skills and conceptual understanding needed to undertake high school-level math courses with confidence.

Math Foundations I empowers students to progress at their optimum pace through over 80 semester hours of interactive instruction and assessment spanning 3rd- to 5th-grade math skills. Carefully paced, guided instruction is accompanied by interactive practice that is engaging and accessible. Formative assessments help students to understand areas of weakness and improve performance, while summative assessments chart progress and skill development. Early in the course, students develop general strategies for honing their problem-solving skills. Subsequent units provide a problem-solving strand that asks students to practice applying specific math skills to a variety of real-world contexts.

This course is built to state standards and informed by the National Council of Teachers of Math (NCTM) standards and Curricular Focal Points for Prekindergarten through Grade 8 Mathematics: A Quest for Coherence.

Length: Two semesters

UNIT 1: INTRODUCTION TO PROBLEM SOLVING

LESSON 1: BUILDING BASIC WORD PROBLEMS

Study: Building Basic Word Problems

Learn how to convert number sentences into addition or subtraction word problems. Practice this skill using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Building Basic Word Problems

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: A FOUR-STEP APPROACH

Study: A Four-Step Approach

Learn the four steps for solving word problems. Apply the four steps to sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: A Four-Step Approach

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: TOO MUCH OR TOO LITTLE INFORMATION

Study: Too Much or Too Little Information

Learn about determining if there is enough information to solve a given problem, identifying missing information, and separating relevant from irrelevant information. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Too Much or Too Little Information

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 4: DRAW A DIAGRAM

Study: Draw a Diagram

Learn what information to include in a diagram of a problem. Practice this skill using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Draw a Diagram

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 5: USE A MODEL OR ACT IT OUT

Study: Use a Model or Act it Out

Use sample problems to learn when and how to act out a problem or make a model.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Use a Model or Act it Out

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 6: MAKE A LIST

Study: Make a List

Learn the steps for making a list in order to solve a word problem. Explore strategies for checking your answers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Make a List

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 7: BUILD A CHART AND FIND A PATTERN

Study: Build a Chart and Find a Pattern

Learn about collecting data in charts, identifying patterns in order to solve word problems, and completing charts in order to answer questions. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Build a Chart and Find a Pattern

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 8: GUESS AND CHECK**Study: Guess and Check**

Review the four problem solving steps. Learn how to make logical guesses to solve a problem. Solve word problems using this strategy.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Guess and Check

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 9: WORK BACKWARD**Study: Work Backward**

Learn about starting with a solution and working backward to solve a word problem. Learn how to check your answers by working forward. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Work Backward

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 10: BUILDING EQUATIONS**Study: Building Equations**

Learn about setting up an equation using information in a word problem and about choosing the correct operation(s). Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Building Equations

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 11: DEDUCTIVE REASONING**Study: Deductive Reasoning**

Learn the definition of deductive reasoning. Practice making conclusions and deducing which statements in a problem are true. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Deductive Reasoning

Take a quiz to assess your understanding of the material.

LESSON 12: INDUCTIVE REASONING

Study: Inductive Reasoning

Explore inductive reasoning and using induction to continue a pattern. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Inductive Reasoning

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 13: LOGIC PUZZLES

Study: Logic Puzzles

Learn about organizing logic data in a grid and about direct and indirect information. Practice these skills using sample logic problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Logic Puzzles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 6 points

LESSON 14: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 15: INTRODUCTION TO PROBLEM SOLVING WRAP-UP

Review: Introduction to Problem Solving

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Introduction to Problem Solving

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Introduction to Problem Solving

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 2: MULTIPLICATION

LESSON 1: REVIEW OF ADDITION

Study: Review of Addition

Learn to identify parts of an addition sentence and practice adding on the number line. Use an addition table to show all of the addition facts for the numbers 0 to 9.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Review of Addition

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: REVIEW OF SUBTRACTION**Study: Review of Subtraction**

Explore the use of subtraction as a means to take things away from a group. Identify and learn the different parts of a subtraction equation and practice subtraction on a number line.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Review of Subtraction

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: INTRODUCTION TO MULTIPLICATION**Study: Introduction to Multiplication**

Learn about multiplication as repeated addition, the multiplication symbol, sentences, factors, and products.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Introduction to Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: MULTIPLYING BY 0 AND 1**Study: Multiplying by 0 and 1**

Learn how zero times any number equals zero and one times any number equals the number itself. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiplying by 0 and 1

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: MULTIPLICATION ARRAYS**Study: Multiplication Arrays**

Show multiplication problems using a rectangular array, find arrays in a multiplication table, and solve problems using a multiplication array.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiplication Arrays

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: MULTIPLICATION FACTS WITH TABLE**Study: Multiplication Facts with Table**

Review the connection between multiplication and addition and create a multiplication table. Use this table to practice and learn multiplication facts.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiplication Facts with Table

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: TWO-DIGIT BY ONE-DIGIT MULTIPLICATION**Study: Two-Digit by One-Digit Multiplication**

Learn about lining up by place value and about carrying numbers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Two-Digit by One-Digit Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 8: TWO-DIGIT BY TWO-DIGIT MULTIPLICATION**Study: Two-Digit by Two-Digit Multiplication**

Learn about lining up by place value, starting with partial answers, and adding partial answers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Two-Digit by Two-Digit Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 9: THREE-DIGIT BY ONE-DIGIT MULTIPLICATION**Study: Three-Digit by One-Digit Multiplication**

Learn about multiplication as repeated addition, lining up by place value, and starting with partial answers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Three-Digit by One-Digit Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 10: THREE-DIGIT MULTIPLICATION

Study: Three-Digit Multiplication

Learn about three-digit by two-digit problems, lining up by place value, partial answers and their sums, and three-digit by three-digit problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Three-Digit Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 11: MULTIPLYING THREE OR MORE FACTORS

Study: Multiplying Three or More Factors

Learn to use the commutative and associative properties to multiply more than two single-digit factors. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiplying Three or More Factors

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 12: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 30 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 13: MULTIPLICATION WRAP-UP

Review: Multiplication

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Multiplication

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Multiplication

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 3: DIVISION

LESSON 1: INTRODUCTION TO DIVISION

Study: Introduction to Division

Learn about separating equal amounts, symbols and parts of a division sentence, division as the reverse of multiplication, and using the multiplication table to solve division problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Introduction to Division

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: DIVISION WITH 0 AND 1

Study: Division with 0 and 1

Explore what happens when you divide a number by zero or zero by another number. Investigate what happens when dividing a number by one or by itself. Practice your division skills.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Division with 0 and 1

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: DIVISION FACTS WITH TABLE

Study: Division Facts with Table

Learn how to use the multiplication table to solve division problems. Practice this skill using flash cards.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Division Facts with Table

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: UNDERSTANDING REMAINDERS

Study: Understanding Remainders

Review how to divide numbers into equal amounts. Discover what happens when you have something left over after making equal groups. Study division problems that have remainders.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Understanding Remainders

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: INTRODUCTION TO LONG DIVISION

Study: Introduction to Long Division

Learn about setting up a long-division problem. Observe a demonstration of steps with problems having single-digit divisors. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Introduction to Long Division

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: LONG DIVISION WITH REMAINDERS

Study: Long Division with Remainders

Observe a demonstration of estimating the divisor using multiplication and noting the remainder. Practice these skills using sample problems that have single-digit divisors and remainders.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Long Division with Remainders

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: LONG DIVISION WITH TWO-DIGIT DIVISORS

Study: Long Division with Two-Digit Divisors

Learn how to break down a dividend when dividing larger numbers. Study the steps for dividing by a two-digit divisor. Practice solving problems with two-digit divisors.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Long Division with Two-Digit Divisors

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 8: LONG DIVISION WITH THREE-DIGIT DIVISORS

Study: Long Division with Three-Digit Divisors

Learn to apply the steps of long division to problems with three-digit divisors and dividends. Practice this skill using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Long Division with Three-Digit Divisors

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 9: CHECKING DIVISION

Study: Checking Division

Learn about using multiplication to check division problems and about adding remainders. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Checking Division

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 10: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 11: DIVISION WRAP-UP

Review: Division

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Division

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Division

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 4: MULTIPLICATION AND DIVISION CONCEPTS

LESSON 1: PROPERTIES OF MULTIPLICATION

Study: Properties of Multiplication

Learn about commutative and associative properties and using the properties to solve multiplication (but not division) problems. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Properties of Multiplication

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: PLACE VALUE

Study: Place Value

Use periods to figure out a digit's place value. Determine place value up to the hundred-millions place.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Place Value

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: INVERSE OPERATIONS

Study: Inverse Operations

Explore how to reverse the action of one operation with another operation. Use the number line tool to experiment with inverse operations, such as addition and subtraction, or multiplication and division. Learn about the exception of zero in division. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Inverse Operations

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: ROUNDING TO THE 10'S, 100'S, AND 1000'S

Study: Rounding to the 10's, 100's, and 1000's

Identify key words that ask you to round a number. Learn the steps to round a given number to the 10s, 100s, or 1000s place.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Rounding to the 10's, 100's, and 1000's

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: ESTIMATING PRODUCTS

Study: Estimating Products

Review when to use estimation. Compare products produced by overestimating and underestimating. Use the concept of rounding to find the best product estimates.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Estimating Products

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: PRIME NUMBERS

Study: Prime Numbers

Learn about number factors, the definition of a prime number, and using a rectangle to find primes. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Prime Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: FACTORS

Study: Factors

Learn about factor pairs and using factor pairs to find all factors of a given number.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Factors

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 8: COMMON FACTORS

Study: Common Factors

Observe a demonstration of the steps for finding the greatest common factor, or GCF. Practice this skill using a sample problem.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Common Factors

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 9: PRIME FACTORIZATION

Study: Prime Factorization

Learn about prime and composite numbers and how the "footprint" of a composite number ("factorprint!") is its prime factorization. Practice these skills using factor-tree sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Prime Factorization

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 10: MULTIPLES

Study: Multiples

Learn about finding multiples using skip-counting, division, or multiplication. Explore common multiples and steps for finding the least common multiple, or LCM. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiples

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 11: GROUPING WITH PARENTHESES

Study: Grouping with Parentheses

Learn about using grouping to define order of operations. Practice this skill using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Grouping With Parentheses

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 12: MULTIPLYING BY 10 AND 100

Study: Multiplying by 10 and 100

Learn about adding one or two zeros to the number being multiplied. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Multiplying by 10 and 100

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 13: PROBLEM SOLVING**Study: Problem Solving**

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 14: MULTIPLICATION AND DIVISION CONCEPTS WRAP-UP**Review: Multiplication and Division Concepts**

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Multiplication and Division Concepts

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Multiplication and Division Concepts

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 5: FRACTIONS**LESSON 1: THE MEANING OF FRACTIONS****Study: The Meaning of Fractions**

Learn about writing fractions and about the numerator and denominator. Learn to read fractions.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: The Meaning of Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: THE MEANING OF FRACTIONS: PART OF A GROUP**Study: The Meaning of Fractions: Part of a Group**

Learn about the role of the numerator and denominator in fractions. Learn about representing parts of groups.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: The Meaning of Fractions: Part of a Group

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: FRACTIONS WITH ZEROS

Study: Fractions with Zeros

Learn about how fractions with zero as the numerator equal zero and how fractions with zero as the denominator are undefined.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Fractions with Zeros

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: ESTIMATING FRACTIONS

Study: Estimating Fractions

Learn about comparing common fractions and estimating fractional amounts and mixed numbers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Estimating Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: LOCATING FRACTIONS ON A NUMBER LINE

Study: Locating Fractions on a Number Line

Learn about the parts of the number line that are between units, dividing the number line by a denominator, and finding improper fractions on the number line. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Locating Fractions on a Number Line

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: COMPARING LIKE FRACTIONS

Study: Comparing Like Fractions

Learn about comparing numerators. Practice this skill using a sample problem.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Comparing Like Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: EQUIVALENT FRACTIONS

Study: Equivalent Fractions

Compare pairs of fractions and identify different fractions that represent the same amount. Find equivalent fractions using fraction pieces and multiplication.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Equivalent Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 8: SIMPLIFYING FRACTIONS**Study: Simplifying Fractions**

Learn to reduce a fraction by dividing the numerator and denominator by the same nonzero number greater than 1. Learn to divide by the GCF to get a fraction's simplest form. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Study: Flash Cards

Participate in a flash card activity to practice simplifying fractions.

Duration: 0 hrs 10 mins

Quiz: Simplifying Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 9: FINDING COMMON DENOMINATORS**Study: Finding Common Denominators**

Learn about rewriting fractions to get common denominators, finding the LCM, and multiplying denominators. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Finding Common Denominators

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 10: COMPARING UNLIKE FRACTIONS**Study: Comparing Unlike Fractions**

Learn about finding the LCD in order to compare fractions. Practice this skill using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Comparing Unlike Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 11: FRACTIONS OF WHOLE NUMBERS

Study: Fractions of Whole Numbers

Learn about dividing more than one item or number and renaming improper fractions as whole numbers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Fractions of Whole Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 12: MIXED NUMBERS AND IMPROPER FRACTIONS**Study: Mixed Numbers and Improper Fractions**

Learn about the combination of a whole number and a fraction, reading mixed numbers, and writing improper fractions. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Mixed Numbers and Improper Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 13: COMPARING AND ORDERING MIXED NUMBERS**Study: Comparing and Ordering Mixed Numbers**

Learn about comparing whole number parts first, rewriting fractional parts to get common denominators, and ordering more than two mixed numbers. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Comparing and Ordering Mixed Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 14: CONVERTING MIXED NUMBERS AND IMPROPER FRACTIONS**Study: Converting Mixed Numbers and Improper Fractions**

Learn about finding the numerator in order to convert from a mixed number to an improper fraction and dividing in order to convert from an improper fraction to a mixed number. Practice these skills using sample problems.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Converting Mixed Numbers and Improper Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 15: PROBLEM SOLVING**Study: Problem Solving**

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 16: FRACTIONS WRAP-UP

Review: Fractions

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Fractions

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Fractions

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 6: DECIMALS

LESSON 1: THE MEANING OF DECIMALS

Study: The Meaning of Decimals

Identify the dot in decimal numbers and learn how to read them aloud. Explore how decimal points separate whole units from parts of a unit.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: The Meaning of Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 2: PLACE VALUE WITH DECIMALS

Study: Place Value with Decimals

Learn about place names for numbers to the right of a decimal point, how value decreases when moving to the right of a decimal point, and comparing and reading decimal values. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Place Value with Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 3: LOCATING DECIMALS ON A NUMBER LINE

Study: Locating Decimals on a Number Line

Learn about finding parts of a whole on the number line and writing fractions from the number line in decimal form. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Locating Decimals on a Number Line

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 10 points

LESSON 4: COMPARING AND ORDERING DECIMALS

Study: Comparing and Ordering Decimals

Discover how to line up decimal numbers to compare them. Learn how to compare each place in a decimal number. Put decimal numbers in order from greatest to least.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Comparing and Ordering Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 10 points

LESSON 5: ROUNDING WITH DECIMALS

Study: Rounding with Decimals

Review rounding whole numbers, applying the same rules to rounding decimals, and how rounding can affect higher place values. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Rounding with Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 10 points

LESSON 6: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 7: DECIMALS WRAP-UP

Review: Decimals

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 10 mins

Test (CS): Decimals

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Decimals

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 7: OPERATIONS WITH FRACTIONS AND DECIMALS

LESSON 1: WORD PROBLEMS WITH FRACTIONS

Study: Word Problems With Fractions

Review the meaning of fractions and four steps to solving word problems. Practice solving word problems involving

fractions.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Word Problems With Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 14 points

LESSON 2: ADDING AND SUBTRACTING LIKE FRACTIONS

Study: Adding and Subtracting Like Fractions

Review addition and subtraction with whole numbers. Practice these skills using sample problems in which you must add and subtract fractions with like denominators.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Like Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 3: ADDING AND SUBTRACTING LIKE FRACTIONS IN WORD PROBLEMS

Study: Adding and Subtracting Like Fractions in Word Problems

Review the four steps of problem-solving, applying problem-solving strategies in order to analyze word problems with fractions, and rewriting word problems as number problems. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Like Fractions in Word Problems

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 11 points

LESSON 4: ADDING AND SUBTRACTING UNLIKE FRACTIONS

Study: Adding and Subtracting Unlike Fractions

Learn about rewriting fractions in order to get equivalent fractions, using the least common denominator, or LCD, and adding and subtracting equivalent fractions. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Unlike Fractions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 14 points

LESSON 5: ADDING AND SUBTRACTING UNLIKE FRACTIONS IN WORD PROBLEMS

Study: Adding and Subtracting Unlike Fractions in Word Problems

Review the four steps of problem-solving, applying problem-solving strategies in order to analyze word problems with fractions, rewriting word problems as number problems, and rewriting fractions in order to get equivalent fractions. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Unlike Fractions in Word Problems

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 6: ADDING MIXED NUMBERS

Study: Adding Mixed Numbers

Learn the definition of a mixed number. Learn about adding components, the order of addition with mixed numbers, adding mixed numbers whose fractions have different denominators, and when and how to carry over whole numbers. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding Mixed Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 7: SUBTRACTING MIXED NUMBERS

Study: Subtracting Mixed Numbers

Learn about the order of subtraction with mixed numbers, subtracting mixed numbers whose fractions have different denominators, and when and how to borrow from whole numbers. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Subtracting Mixed Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 8: ADDING AND SUBTRACTING FRACTIONS AND WHOLE NUMBERS

Study: Adding and Subtracting Fractions and Whole Numbers

Learn about adding and subtracting different combinations of fractions and whole numbers with like or unlike denominators. Learn about changing improper fractions to mixed numbers and about borrowing fractions from whole numbers in order to solve problems. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Fractions and Whole Numbers

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 15 points

LESSON 9: ADDING AND SUBTRACTING DECIMALS

Study: Adding and Subtracting Decimals

Review place value to the right of a decimal point, lining up decimal points to add and subtract, and regrouping using zeros as place value holders. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 25 mins Scoring: 10 points

LESSON 10: DECIMALS AND MONEY

Study: Decimals and Money

Learn about writing values of bills and coins as decimals, adding and subtracting money using coins and bills, and using decimals. Practice these skills using sample problems.

Duration: 0 hrs 40 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Decimals and Money

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 11: ADDING AND SUBTRACTING DECIMALS IN WORD PROBLEMS

Study: Adding and Subtracting Decimals in Word Problems

Review problem-solving steps and converting word problems into number problems with decimals. Practice adding and subtracting decimals using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Adding and Subtracting Decimals in Word Problems

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 12: ESTIMATING SUMS AND DIFFERENCES WITH DECIMALS

Study: Estimating Sums and Differences with Decimals

Learn about rounding decimal values to the nearest whole number and using larger place values for larger numbers. Understand how rounding to different place values affects estimates. Practice estimating decimal sums and differences using sample problems.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Estimating Sums and Differences with Decimals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 13: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 14: OPERATIONS WITH FRACTIONS AND DECIMALS WRAP-UP

Review: Operations with Fractions and Decimals

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Operations with Fractions and Decimals

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Operations with Fractions and Decimals

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 8: 2-D GEOMETRY

LESSON 1: POINTS, SEGMENTS, RAYS, AND LINES

Study: Points, Segments, Rays, and Lines

Discover the meaning of the word *geometry*. Identify basic geometric objects. Learn how to name points, segments, rays, and lines.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Points, Segments, Rays, and Lines

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: IDENTIFYING PARTS OF ANGLES

Study: Identifying Parts of Angles

Explore the definitions and naming of basic geometric objects.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Identifying Parts of Angles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: CLASSIFYING ANGLES

Study: Classifying Angles

Explore angles, vertices, and sides. Learn about naming angles. Practice naming angles.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Classifying Angles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 9 points

LESSON 4: MEASURING ANGLES WITH A PROTRACTOR

Study: Measuring Angles with a Protractor

Learn about measuring angles and classifying by degrees. Explore the definitions of acute, right, and obtuse angles. Practice classifying angles by degrees.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Measuring Angles with a Protractor

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: PARALLEL, INTERSECTING, AND PERPENDICULAR PATHS**Study: Parallel, Intersecting, and Perpendicular Paths**

Learn the steps for measuring angles with a protractor. Practice using a protractor.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Parallel, Intersecting, and Perpendicular Paths

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: OPEN AND CLOSED FIGURES**Study: Open and Closed Figures**

Explore intersecting, perpendicular, and parallel lines. Practice identifying types of lines.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Open and Closed Figures

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: IDENTIFYING POLYGONS**Study: Identifying Polygons**

Learn the definitions of open and closed geometric figures.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Identifying Polygons

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 8: CLASSIFYING TRIANGLES**Study: Classifying Triangles**

Learn the definition of a polygon. Explore different types of polygons, including common examples such as triangles, quadrilaterals, and pentagons. Practice identifying different polygons.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Classifying Triangles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 9: CLASSIFYING QUADRILATERALS

Study: Classifying Quadrilaterals

Learn about classifying triangles by lengths of sides. Learn what isosceles, equilateral, and scalene triangles are. Practice classifying triangles by side length.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Classifying Quadrilaterals

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 10: IDENTIFYING PARTS OF CIRCLES

Study: Identifying Parts of Circles

Learn the definition of a quadrilateral. Explore examples of common quadrilaterals, such as rectangles, squares, rhombi, and all subsets of parallelogram. Learn the definition of a trapezoid and explore examples of trapezoids. Practice identifying quadrilaterals.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Identifying Parts of Circles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 11: LINES OF SYMMETRY

Study: Lines of Symmetry

Learn about the definition and parts of a circle, including the center, radius, diameter, chords, and circumference. Practice identifying the parts of a circle.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Lines of Symmetry

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 12: SLIDING, T TURNING, AND FLIPPING SHAPES

Study: Sliding, Turning, and Flipping Shapes

Learn the definition of a line of symmetry and how to find one. Explore examples of objects with one or more lines of symmetry or with no lines of symmetry. Practice identifying lines of symmetry.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Sliding, Turning, and Flipping Shapes

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 13: CONGRUENCE AND SIMILARITY

Study: Congruence and Similarity

Identify congruent and similar shapes. Slide, turn, and flip shapes to see if they are congruent or similar.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Congruence and Similarity

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 14: USING GEOMETRIC VOCABULARY

Study: Using Geometric Vocabulary

Explore the definition and examples of congruent and similar shapes. Practice determining congruence and similarity.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Using Geometric Vocabulary

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 15: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 16: 2-D GEOMETRY WRAP-UP

Review: 2-D Geometry

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): 2-D Geometry

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): 2-D Geometry

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 9: PERIMETER AND AREA

LESSON 1: PERIMETER

Study: Perimeter

Find the perimeter of a 2-D shape by measuring its side lengths. Learn shortcuts for finding the perimeter of rectangles

and squares. Build rectangles or squares with a given perimeter.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Study: Flash Cards 1

Participate in a flash card activity to practice finding perimeter.

Duration: 0 hrs 10 mins

Study: Flash Cards 2

Participate in a flash card activity to practice building perimeter.

Duration: 0 hrs 10 mins

Quiz: Perimeter

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: INTRODUCTION TO AREA

Study: Introduction to Area

Learn the definition of perimeter and the formula for finding the perimeter of special shapes, such as rectangles and squares. Practice calculating perimeters.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Introduction to Area

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: AREA OF RECTANGLES AND SQUARES

Study: Area of Rectangles and Squares

Learn the definition of area and how to measure area with tiles. Practice calculating the area of real-world objects.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Area of Rectangles and Squares

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: AREA OF PARALLELOGRAMS

Study: Area of Parallelograms

Discover the connection between rectangles and parallelograms. Learn a shortcut for finding the area of a parallelogram. Practice building a parallelogram with a given area.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Area of Parallelograms

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: AREA OF TRIANGLES

Study: Area of Triangles

Discover the connection between parallelograms and triangles. Learn a shortcut for finding the area of a triangle. Build a triangle with a given area.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Area of Triangles

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 7: PERIMETER AND AREA WRAP-UP

Review: Perimeter and Area

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Perimeter and Area

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Perimeter and Area

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 10: 3-D GEOMETRY

LESSON 1: THREE DIMENSIONS

Study: Three Dimensions

Learn about measuring three-dimensional figures.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Three Dimensions

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 9 points

LESSON 2: INTRODUCTION TO VOLUME

Study: Introduction to Volume

Review how to find the area of a flat shape. Learn common units for measuring volume. Use cubes to find the volume of solid shapes.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Introduction to Volume

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: VOLUME OF RECTANGULAR SOLIDS

Study: Volume of Rectangular Solids

Learn about the definition of solid shapes, the formula for volume, measuring in cubic units, and comparing volumes.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Volume of Rectangular Solids

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: POLYHEDRA

Study: Polyhedra

Explore the geometric properties of polyhedra.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Polyhedra

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: SURFACE AREA

Study: Surface Area

Learn the definition of surface area and calculate the surface area for a given geometric solid.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Surface Area

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: ESTIMATION AND UNITS

Study: Estimation and Units

Hone your area and volume estimation skills and practice choosing the appropriate units.

Duration: 0 hrs 25 mins

Checkup: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Estimation and Units

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 7: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 8: 3-D GEOMETRY WRAP-UP**Review: 3-D Geometry**

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): 3-D Geometry

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): 3-D Geometry

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points

UNIT 11: DATA ANALYSIS**LESSON 1: TYPES OF DATA****Study: Types of Data**

Begin your study of data analysis by categorizing different types of data.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Types of Data

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 2: FREQUENCY TABLES, LINE PLOTS, AND BAR GRAPHS**Study: Frequency Tables, Line Plots, and Bar Graphs**

Explore graphical representations of data in the forms of frequency tables, line plots, and bar graphs.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Frequency Tables, Line Plots, and Bar Graphs

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 3: STEM AND LEAF PLOTS AND HISTOGRAMS**Study: Stem and Leaf Plots and Histograms**

Explore graphical representations of data in the forms of stem and leaf plots and histograms.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Stem and Leaf Plots and Histograms

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 4: DATA PAIRS AND DOUBLE-BAR GRAPHS

Study: Data Pairs and Double-Bar Graphs

Investigate various sets of data pairs and their properties.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Data Pairs and Double-Bar Graphs

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 5: DATA PAIRS AND SCATTER PLOTS

Study: Data Pairs and Scatter Plots

Explore graphical representations of data in the forms of double bar graphs and scatter plots.

Duration: 0 hrs 25 mins

Checkpoint: Practice Problems

Complete a set of practice problems to hone your calculation skills.

Duration: 0 hrs 20 mins

Quiz: Data Pairs and Scatter Plots

Take a quiz to assess your understanding of the material.

Duration: 0 hrs 20 mins Scoring: 10 points

LESSON 6: PROBLEM SOLVING

Study: Problem Solving

Learn strategies for solving a variety of application problems related to topics in this unit.

Duration: 0 hrs 25 mins

Practice: Assignment

Submit your work for a set of problem-solving applications.

Duration: 0 hrs 30 mins Scoring: 30 points

LESSON 7: DATA ANALYSIS WRAP-UP

Review: Data Analysis

Review unit material in preparation for upcoming assessments.

Duration: 0 hrs 30 mins

Test (CS): Data Analysis

Take a computer-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 60 points

Test (TS): Data Analysis

Take a teacher-scored test to assess what you have learned in this unit.

Duration: 0 hrs 30 mins Scoring: 50 points
